

THE FUTURE OF EDUCATION WITH ONLINE CLASSES

Namarta Panicker

it's very flexible and a pace can be set as per the convenience of everyone involved. Learning can be easily customized as per the requirement. Space restriction and departmental interference ends. Online education will soon be the only way of educating and sharing knowledge. Let's accept and welcome this new style in our lives.

Rashmi Sharma

This pandemic has given us a chance to see the decades-old education system with a new perspective. Education is a process of learning and the process of learning should never be stopped, online classes have shown us a shining beacon of hope. In the first place, the online classes are safe for our kids, they don't have to go outside, We get to see the teaching methods and tend to know them much better.

Sakhshi Makhija

I don't see future of online education is very bright, because nothing can beat the quality of education and exposure kids get in traditional schooling method. According to me online education can provide you with all the knowledge you require to understand, but when in the schools something is taught practically leaves more impact on a child's brain. whereas Talking about online education - it is a temporary arrangement, which is somewhere helping kids to involve themselves at present the covid situations going around.. Like its said-"something is better than nothing! "

Karmanyaraj Singh Yadav

Being a firm pragmatist, I believe that the future of education is going to face a negative impact because of online teaching. Teaching in class allows for the engagement of many hands-on activities for students. From group projects to recreational activities, children are motivated to do their work and cooperate. The efforts of working online regarding such projects go in vain as the child loses his/her focus, and the entire impact of community learning is snatched away. Online classes make it easier to procrastinate and create a sense of isolation. I feel that practical learning is where our future lies and this concept of online education is nothing but a temporary form of coping up with our academic needs.

Riya Matta

PAUL LEVINSON has rightly said, " Online learning can be a lifeline to those who have obstacles, such as geographical distances or physical disabilities. "In my opinion we should get involved in Online education as: It's flexible, accessible, it offers a wide selection of courses, allows customized learning experience and more cost effective than traditional education.

Aparna Sachdeva

With rise in technology and use of internet one should adapt to the ways of E-learning. it's hard for the children to move ahead from the conventional ways of education. My children studying in grade 8 & 5 respectively find it a lot more comfortable and effective way of learning too.

Nupur Magan

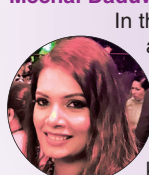

Last three months were challenging in every one's life, especially mothers. As mothers we were and are still juggling between keeping our kids safe, healthy and educated. Initially I was quite apprehensive as you say 'FEAR OF THE UNKNOWN' because I was supposed to open my children to a world even I was new to. Various thoughts entered my mind, But believe me thanks to their teachers in a week everything fell into place and started moving smoothly. Online education is doing amazingly well in teaching them their subjects but they miss their friends, their extracurricular activities, competitions etc.

Chandni Grover

Online education does allow the student and teacher to set their own learning pace and adds flexibility of setting a schedule that suits each student, though there are some positives, there are some negatives too. Too much screen time does have a negative effect on the child's health.

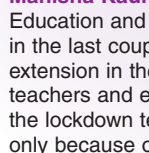

Meenal Daduwalla

In this Pandemic situation of COVID-19, Kids all over the world are facing immense hindrance on academic growth factor. Few countries have declared 2020 as zero academic year but at the same time India has emerged as the great savior for kids growth in all aspects through online classes. Many are considering this as money extracting act but think of it, kids doing no study, no learning and not using their brains at all for 365 days (less or more).

Manisha Kaul

Education and the way of teaching have changed drastically in the last couple of years. Online classes are just an extension in the same direction. We should be thankful to teachers and educators who have been busy throughout the lockdown teaching the kids through online classes. It is only because of these classes that school going children have been able to study and finish their syllabus on time in the safety of their homes. It also enables the kids to maintain a routine and the interaction with the teachers and their classmates keeps them happy.

नॉर्मली तो हम अपने बच्चों को डिजिटल और वर्चुअल वर्ल्ड से दूर रखते थे। ड्यूटिंग लॉकडाउन वी आर वरी अबाउट अवर किड्स स्टडीज एंड डिस्प्लेन। लेकिन ऑनलाइन क्लासेस ने हमारी इस वरी का एंड किया। अब बच्चे डिस्प्लेन से पढ़ रहे हैं उनकी स्टडीज कंटीन्यू हो गई है और अब तो अकैडमिक के अलावा ट्यूशन और हॉबीज क्लासेस भी ऑनलाइन चल रही हैं। सो ओवरऑल इट्स ए गुड प्लेटफॉर्म। अब ये हम पेरेंट्स पर डिपेंड करता है कि हमें बच्चों को डिजिटल वर्ल्ड को कैसे यूटिलाइज कराना है।

कनिका खेरा

इस लॉकडाउन में डिजिटल क्लासेस एजुकेशन सेक्टर में एक रिवॉल्यूशन के तौर पर इंट्रोड्यूस हुई हैं। अब हम कह सकते हैं कि स्कूल्स और एजुकेशनल इंस्टीट्यूट की ऑनलाइन क्लासेस के थ्रू पेरेंट्स को भी एक अपॉर्च्युनिटी मिली है कि हम अपने सिटी के बाहर के इंस्टीट्यूट को ऑप्ट कर सकते हैं, जो हमारे किड्स के लिए बेस्ट हो। सबसे अच्छी बात यह है कि हम अपने किड्स को अपने सामने विद केयर एंड प्रोपर वे में एजुकेशन लेते देख रहे हैं। टॉडलर्स के लिए ऑनलाइन क्लासेस काफी सेफ एंड सिक्योर एनवायरन्मेंट है।

मेघना मिड्डा

ऑनलाइन क्लासेस हमारे एजुकेशन सिस्टम का एक इंटीग्रेट पार्ट है। इस पेंडमिक से पहले डिजिटल क्लासेस स्कूल्स में होती थीं। ड्यूटिंग दिस लॉकडाउन पेरेंट्स को लग रहा था कि कहीं हमारे चाइल्ड को एकेडमिक ग्रोथ न रूक जाये। नाओ स्कूल्स ने ऑनलाइन क्लासेस के थ्रू इस प्रॉब्लम को काफी हद तक रिसॉल्व किया है। ऑनलाइन क्लासेस के साथ बच्चा टेक सेवी भी बन रहा है। मेरे अनुसार अब स्कूल्स को ऑनलाइन और ऑफलाइन क्लासेस दोनों को पैरेलल लेकर चलना होगा। किड्स को स्कूल भी जाना जरूरी है।
